

Iksanika Announces Its Annual Results for Travel Software Development Projects

San Jose, CA- Iksanika llc. today announced results of cooperation with Travel and Entertainment companies for the year ended December 31, 2010. Successfully implemented projects range from travel software development and design to critically important solutions maintenance and support.

The Travel and Entertainment industry is facing an increasing number of new challenges today: demanding tourists and business travelers, customers' focus on online booking systems and solutions that provide high quality travel experiences.

Iksanika contributed to Travel and Entertainment industry leaders' success by focusing on creative and cost-effective IT solutions. Iksanika takes advantage of its proven expertise and knowledge of cutting-edge technologies to develop end-to-end customized business solutions (online booking services, airline solutions, meeting and events planning software solutions, hotel software etc.), and tools that help companies gain more customers.

The industry leaders have chosen Iksanika as its travel software programming complex of services extends beyond traditional offerings. Iksanika's result-oriented approach helps companies to maximize their return on investments in e-Commerce as well as shorten time-to-market, provide solutions that can satisfy the most demanding customer and reduce costs by using effective offshore software development model.

Extensive experience of cooperation with travel agencies, tour operators, cruise lines, insurance companies, corporations, ferry lines, airports, railway companies, destination services providers, car rentals, online booking sites, and other professional market players ensures Iksanika's deep understanding of the unique needs of companies in Travel.

"Iksanika's diverse portfolio encompasses a wide range of technologies that exactly fit the needs of Travel and Entertainment companies. Our proven analytical and travel software programming talent, and commitment to excellence align well with our clients goals of strengthening their positions and providing high-quality services to their customers. We expect all of our businesses to benefit from the fruitful cooperation in 2010", said Alex Vergej, Iksanika CEO.
