

Iksanika Delivers Innovation to Business Applications and Solutions Vendors

Iksanika, a high-end US-based software outsourcing company with development center in Belarus, has announced today the extension of [custom software development](#) practice addressed to [Business Applications and Solutions vendors](#).

Based on its proven expertise of [custom software development](#), Iksanika provides high-quality technological support to companies seeking for time- and cost-effective solutions. 9+ years experience allows Iksanika to guarantee applications' functional maturity and enhanced usability. Employing the benefits from its outsourcing location in Eastern Europe, Iksanika is able to offer reasonable prices, retaining competitive level of qualification and service. Company's managers provide efficient communication within the project, thus making delivery process flexible, predictable and controllable.

"Iksanika's extensive experience in a wide number of tools and technologies and our proven track of record demonstrate our capability do deliver unique software products. However what we do offer is not just development. Iksanika is dedicated to perfection and innovation. We conduct an in-depth study of every customer's requirements and requests. Our analysts do not focus on pure technology. By making an in-depth complex investigation of client's goals, we find and propose the best business solution that will make an application the tool sentenced to success in this fast-evolving industry ", - said Alex Vergej, CEO of Iksanika. - "Thus Iksanika delivers business ideas and technical implementation combined".

Company's best-in-class professionals can help the vendors to develop Customer Relationship Management, Enterprise Resource Planning, Supply Chain Management systems and other types of business applications that comply with an enterprise's specific requirements.

"We offer full-cycle software development, re-engineering, QA and maintenance services. On each stage we provide full transparency of development process and meet the deadlines. Iksanika's project managers ensure high responsiveness and day-to-day communication with the customer. It helps to eliminate the risk of misunderstanding and deliver software solutions that are an absolute fit for the client. We do better than you expect", - added Alex Vergej.

About Iksanika:
