Iksanika Showed 40 % Growth in Hotel Software Development and Resort & Hospitality Consulting Projects

San Jose, CA - Iksanika llc. today announced results for the year ended December 31, 2010. Cooperation with Resort and Hospitality industry leaders from USA, United Kingdom, Germany , Italy and Estonia in the field of hotel software development and consulting services brought Iksanika 40 percent growth in projects for the industry.

Iksanika addresses unique and complex industry requirements and offers solutions to optimize full cycle of business processes: from reservations, check-in, point-of-sale and business intelligence, to inventory and procurement management to document management.

Iksanika's comprehensive set of services covers hotel software programming, hardware and system infrastructure development. Company's experienced hotel software developers and project managers have the deep understanding of specific Resort and Hospitality business domains needed to provide high quality services.

In 2010 Iksanika implemented complex meetings and events planning solutions, hotel management systems and realized their integration with global distribution system for numerous companies in USA, United Kingdom, Estonia, and Germany.

 "People who are on their vacation expect everything, from reservation and transportation to accommodation, meals and entertainment, to be just perfect. This means that resort and hospitality market players have to make sure that all IT solutions starting from online booking to staff control software should be up and running 24 hours 7 days a week with real time availability. In 2010 we were involved in consulting and hotel software development projects on a global scope. The end users of these solutions are Resort and Hospitality industry leaders – Marriot, Hyatt, Hilton, Carlton Wagonlit Travel and others. We are proud to have contributed to their success", commented Alex Vergej, Iksanika CEO.
